

# E-rate Category 2 Eligibility and Form 470/Bidding Guide - Non-Public Schools and Libraries

---

## Funding Year 2024

Presented by Julie Tritt Schell  
PA E-rate Coordinator  
for the Pennsylvania Department of Education  
October 2023

# Categories of Service Recap

---

- **Category 1** – Services that go TO the school

- Subcategories:

- Data Transmission Services (fiber, coaxial cable, etc.)
- Internet Access

- Maximum discount is 90%

- No E-rate funding caps

- **Category 2** – Services/equipment that go INSIDE the school

- Subcategories:

- **Internal Connections**
- Basic Maintenance of Internal Connections
- Managed Internal Broadband Services (MIBS)

- Maximum discount is 85%

- Subject to 5-year E-rate funding caps

# Internal Connections

---

- Wireless Access Points/Controllers
  - Network Routers & Switches
  - In-Building Structured Cabling
  - Caching Servers
    - Only eligible servers
  - Firewalls (appliances only)
    - No ancillary modules/functions are eligible, like anti-spam, anti-virus, etc.
    - No 'redundant' or high availability firewalls
  - Racks and UPSs
    - That support eligible equipment only
    - Network cards aren't eligible
  - Equipment licenses
    - Multi-year licenses can be requested in first year
  - Cloud-based functionality of this equipment
- Operating system software to support eligible equipment
  - Installation and configuration
    - If wanted, be sure to specify this in your 470/RFP
  - Taxes and fees
  - Basic training on use of equipment

- **Not eligible:**
  - Storage Devices
  - Voice/Video Components
  - End User Devices

# School-to-School Fiber Eligibility

---

- For schools that are in close proximity, applicants often want to use C2 funds to install fiber between them
- FCC has well intentioned, but restrictive, rules related to these connections, as follows:
  - **1 school but located in 2 buildings (rare)**
    - Fiber between those buildings = Category 2
    - Does PDE recognize it as single school?
  - **2 schools but located in same building (rare)**
    - Fiber between those schools = Category 2
  - **2 schools but located in different buildings (common)**
    - Fiber between these buildings = Category 1
    - Considered “Self Provisioned Fiber” and must bid accordingly on Form 470
    - Cannot use C2 funding, unfortunately

# Basic Maintenance (BMIC)

---

- **Eligible:**
  - Repair and upkeep of eligible hardware
  - Wire and cable maintenance
  - Configuration changes
  - Basic technical support including online and telephone-based technical support
  - Software upgrades and patches including bug fixes and security patches
- **Eligibility limitations:**
  - Contract must specifically identify the equipment being covered, including product name, model number and location.
  - Support will only be paid for actual work performed under contract.
  - Support for bug fixes, security patches, and technical support is 100% eligible
- **BMIC does not include:**
  - Services that maintain ineligible equipment
  - Upfront estimates that cover the full cost of every piece of eligible equipment
  - Services that enhance the utility of equipment beyond the transport of information or diagnostic services in excess of those necessary to maintain the equipment's ability to transport information
  - Network management services, including 24-hour network monitoring
  - On-site technical support (i.e., contractor duty station at the applicant site)
  - Unbundled warranties

# Basic Maintenance (BMIC) Recommendation

---

## I do not recommend that applicants use their C2 budgets for BMIC. Why?

1. Can only be for services/work performed from during 12 month funding year (7/1/2024 – 6/30/2025)
  - Does **not** follow the 4/1/2024 – 9/30/2025 schedule
  - Does **not** follow the first 12 months of ownership schedule
2. Multi-year contracts must be amortized
  - Cannot apply for full cost of multi-year BMIC contract in Year 1
  - Must amortize and request discounts for each year, annually
3. Next day replacement contracts not eligible
  - Only basic tech support, configuration changes are 100% eligible
4. Conditionally eligible = repair of equipment, cable maintenance
  - E-rate will commit based on amount of contract
  - BUT.... will only reimburse for time/parts used
  - C2 budget takes “hit” based on full commitment, not funds “used”

**~ Use your Category 2 budgets for equipment and installation ~**

# Managed Internal Broadband Services (MIBS)

---

- Definition:
  - Services provided by a 3<sup>rd</sup> party for the operation, management and monitoring of eligible internal connections (managed wi-fi)
- Eligible:
  - Management and operation of the LAN/WLAN, including installation, activation, and initial configuration of eligible components and on-site training on the use of eligible equipment
- Eligibility limitations:
  - Only eligible equipment may be managed
  - Must have listed specific equipment to be maintained in RFP
- Has traditionally not been popular among applicants
- 2 Options:
  - Paying an outside vendor to own/maintain the equipment
  - Paying an outside vendor to maintain school-owned equipment
- Subject to the C2 budget caps

# Equipment Transfer/Disposal Rules

---

- **Transfers:** As of July 1, 2021, E-rate funded equipment from any year may be transferred between eligible buildings
  - If equipment is transferred between buildings within 5 years from date of purchase, must record reason and date of transfer and update asset inventory
    - No notice to USAC is required
  - Asset inventory must be retained for 10 years from date of purchase
- **Disposal:** Equipment may be disposed of, sold, transferred, etc. from 5 years from the date of installation
  - No notice to USAC required but asset inventory must be updated

# NIFs Not Eligible for C2 Funding

---

- Non-instructional facilities (NIFs) are ineligible for C2 funding
  - Must deduct proportional share of NIFs use of any shared equipment
- Equipment may be housed at a NIF, however
  - For example, a Wireless Controller may be housed at data center
  - Wireless Access Points in NIFs may not be purchased with E-rate funds

After 5 years, transfer equipment to NIF

# Category 2 Budget Calculations

# Category 2, 5-Year Funding Caps

---

- Current C2 budget cycle – Funding Years 2021 – 2025
  - All C2 budgets will reset in FY 2026 and no funding will be carried over
  - C2 budgets are *pre-discount*
    - Applicants' E-rate discounts then apply

## C2 Budget Multipliers:

### Single Schools:

\$167 x total enrollment OR \$25,000, whichever total budget is greater

### School Districts:

\$167 x total district enrollment, OR

\$25,000 x total number of schools in the district

– Whichever total budget is greater

### Independent Libraries:

\$4.50 x total square footage OR \$25,000, whichever total budget is greater

### Library Systems:

\$4.50 x total square feet of all library branches OR \$25,000, whichever total budget is greater

# Category 2 Pre-Discount Budget Example

5-Year C2 Budget Cap*	E-rate Discount	E-rate Will Pay:	District's Share %	District Must Pay:
\$204,475	60%	\$122,685	40%	\$81,790

\* The C2 Budget Cap is the **pre-discount price**. E-rate discounts will then apply **on top of** the budget cap. In this example, district would still owe their 40% non-discounted share

- Future funding years: To determine what **“remains”** in a C2 budget for future years in the C2 “cycle”, take the 5-Year Budget Cap and subtract the pre-discount amounts of what has been “committed” in the previous year(s) of the C2 cycle

**What is YOUR Remaining Category 2 Pre-Discount Budget for Current 2 Budget Cycle?**

# Calculating Remaining C2 Budgets

# Data Used for Category 2 Budgets

---

- Enrollment data entered in separate location in EPC (different from discount calculations)
- Why? Enrollments are set at first year you apply for C2 during that Category 2 Budget Cycle
- Not required to update annually
- CAN update if it will increase your C2 budget
  - Must then ask for C2 Budget Recalculation from USAC

## **Where to update C2 enrollment data?**

>>> EPC Landing Page > District Name > Manage Organization > Scroll to bottom of page

# Requesting More Funding Than Remains in C2 Budget

---

**Don't Do It.  
Ever.  
Ever.**

- What happens if you do?
  - Your E-rate application will go into manual processing and funding will be delayed
  - You will be required to identify exactly what FRN line items should be reduced or eliminated to come into budget – USAC will not do this for you

# CATEGORY 2 BIDDING REQUIREMENTS FOR PA NON-PUBLIC SCHOOLS & LIBRARIES

# C2 Bidding Requirements (applies to all applicants)

---

- ✓ Equipment list **MUST** allow for equivalent manufacturer's products to be bid
  - "Cisco 48-port PoE Switch or equipment that is equivalent in functionality and quality"
  - May include a requirement that equivalent equipment must be fully **interoperable** and compatible with District's existing "XYZ" equipment
    - Be sure to list your existing equipment
- ✓ Binary bid disqualification reasons be stated in the State and Local Procurement Requirements of the Form 470 or in the RFP
  - **DQ reasons must be yes/no (either they complied or they did not)**
- ✓ Absent a bid due date, applicants are now required to consider all bids received up until the date you conduct your bid evaluation. Therefore, I suggest including the following language:

**"Deadline for vendor proposals is [January 8, 2024] at 9:00 am Eastern. We reserve the right to reject late-submitted proposals. Proposals must be e-mailed to the Form 470 contact unless otherwise noted."**

# C2 Bidding Requirements (applies to all applicants)

---

- ✓ Companies deemed national security risks
  - FCC prohibits the use of Universal Service funding, including E-rate funds, to purchase equipment and services from companies deemed a national security risk. Be certain that you do not consider any proposals that include any of the companies listed here:  
<https://www.fcc.gov/supplychain/coveredlist>
  
- ✓ All RFP amendments/Q & A/additional information given to bidders besides what is in the original Form 470 or RFP must be uploaded into EPC with original Form 470
  - Includes relevant information given to vendors that would impact bid (FAQs)
    - Locate 470 in EPC > Related Actions > Add an RFP Document
    - Restart 28-day clock for service or entity changes
  - Restart 28-day clock if “cardinal change” made to RFP (adding equip/services, modifying project scope)
  
- ✓ Cannot contact vendors ahead of bidding to seek equipment list
  
- ✓ All C2 services/equipment must have a signed contract before Form 471 is filed

# Category 2 Form 470

---

- If you have additional information than what is listed in your RFP (in RFP or other document), that document must be uploaded when 470 is posted
- All addenda and additional information provided to vendors also must be uploaded into EPC at the time of issuance – Locate 470 in EPC > Related Actions > Add an RFP Document – Restart 28-day clock for service or entity changes

***Best Practice Timeline:*** Post 470/File RFP by first week of December, conduct your bid evaluation in January and file the Form 471 in February or early March.

# Hints When Constructing Form 470

---

- Always list bid due date/time
  - “Bids are due on X date/time to Y person. We reserve the right to accept late-submitted proposals.”
- List all possible disqualification factors (Y/N format)
- List interoperability and compatibility requirements
  - “Must be interoperable with the school’s existing XYZ equipment”
- Consider pre-bid walk through for cabling projects
- It’s ok to forward your posted 470 to potential vendors to encourage bidding
- Although RFPs aren’t required, even a 1-page document describing your project and disqualification criteria is a good idea
  - That way the system permits future amendments/documents to be uploaded with the existing 470

# 470 – File Inside Your EPC Portal

# Caution When Modifying RFP

---

- Applicants must wait at least 28 days from the date the Form 470 is certified before closing the competitive bidding process
- Warning!

Changes to the Form 470 beyond the allowable changes require applicants to wait **an additional** 28 days from the date of the change before closing the competitive bidding process.

The EPC system will not automatically recalculate the new Allowable Contract Date; applicants must do this manually.

# Next Steps – All C2 Procurements

---

- Vendors will submit proposals directly back to the contact indicated on the 470/RFP or PEPPM mini-bid
- After bid due date, ensure bids are compliant with minimum qualifications and then conduct bid evaluation
  - Be sure that price of eligible equipment and services is the most heavily weighted factor
  - If a bid is disqualified, note bid and reason for DQ
    - **Reminder: All DQ factors must be listed in 470/RFP or PEPPM mini-bid**
- Contact winning vendor to seek contract
- Seek board approval (if required)
- Sign contract
  - All C2 requests must have signed contracts
  - Contract can be as simple as a vendor quote that is signed by the school or library. Be sure to include:
    - **Contract signing date (must be before 471 filing date)**
    - **Contract term: 4/1/2024 through 9/30/2025**
    - **Purchase is contingent upon E-rate funding and local funding approval**
- Create Contract Record in EPC and upload contract
- Submit Form 471 by March 2024 deadline
