

Category 1 Form 470

Filing Guide

Funding Year 2025

Agenda

- Form 470 Purpose/Changes
- Category 1
 - Bandwidth/Internet Access
 - Bus Wi-Fi
 - Off Premise Hotspots
- Bid Evaluation
- Certifying the Form 470

Purpose of the Form 470

Form 470 Competitive Bidding Form

- Notifies vendors of services and equipment for which you are seeking proposals
 - All equipment/services for which you will seek funding on the Form 471 must have been posted on a Form 470
- Vendors are invited to submit bids/price quotes for 28 days from the date of certifying your Form 470
 - List **bid due date** in the narrative text box, along with **any disqualifying factors**
- You are NOT obligated to purchase any service/equipment listed on Form 470
- Category 1 and Category 2 can be filed on the same 470

When Must a Form 470 be Posted?

1. Month-to-Month Services

- No contract exists – these are mostly cable modem-type services
- File Form 470 annually unless using CABIO

2. New Contracts

- File Form 470 before signing any new contract
- If you posted a Form 470 in a previous year, and then signed a multi-year contract that expires on or after June 30, 2026, you are **not** required to file a Form 470 for FY 2025

3. Bandwidth Upgrades

- If you're upgrading service mid-contract and the upgrades and associated prices are not included in the original contract

CABIO Internet Bidding Exemption

Commercially Available Bundled Internet Option (CABIO)

- Schools and libraries seeking “Commercially-Available Business Class Internet Services” are not required to file a Form 470
- Typically, only Cable-Modem, DSL, or FIOS Internet Service
- Commercially Available means that it is publicly available to non-residential customers (such as enterprises, small businesses, or other government customers) in the same form and at the same rates that it is offered to schools or libraries
 - Basically, this is an internet service that is available on a vendor’s website for its business customers
- Minimum speeds must be 100 Mbps downstream and 10 Mbps upstream
- Cost must be \$3,600 or less annually (pre-discount)
 - Cost must be per building and cannot be averaged across multiple buildings
 - \$3,600 includes any installation costs, equipment rental, taxes and fees

The CABIO option is geared (but not limited) to small libraries and small non-public schools or NIFs using cable modem-type services

Requests for Proposals (RFPs)

- USAC considers any bidding document provided to vendors an RFP
- RFPs not required, except for:
 - When seeking dark fiber or self-provisioned fiber projects
 - Wireless Data Plans (rarely eligible except for bookmobiles)
- If issuing an RFP, all documents that constitute that RFP must be uploaded with Form 470 at time of filing
 - Cannot only cite to a website bidding advertisement
 - **Important:** Any addenda or other documents given to vendors after the Form 470 is filed must be uploaded with existing 470
 - Must restart the 28-day clock if any changes are made to the original RFP
- Vendors cannot provide RFP language or bid lists
 - Be very wary of any vendor that offers this

When to File the Form 470

Deadline: Form 470 must be posted online at least 29 days before the Form 471 window close

For example:

- If Form 471 deadline is March 25, 2025; therefore...
- February 25, 2025 = 470 Deadline
 - DO NOT wait this long! Gives you 1 day to evaluate bids, negotiate contracts, sign contracts, and then file the Form 471 by the 471 deadline
 - File 470 before December 1, if possible
- Helpful Form 470 Guides: http://E-Ratepa.org/?page_id=754
 - Helpful Form 470 and RFP Narrative Guide

School Bus Wi-Fi & E-Rate

Applying for Wi-Fi on School Buses

Bus Wi-Fi - Equipment and Service Eligibility

- All school bus Wi-Fi equipment, mobile service, and installation will qualify as Category 1.
- Eligible equipment includes modems, routers, antennas, and their installation.
- Maintenance and operation services are not eligible.
- Schools may enter into service contracts with multiple service providers, but only applicants with a rural designation can request E-Rate funding for multiple service providers for the same bus.
- When buses are not being used for educational purposes, the Wi-Fi must be disabled. This includes renting buses for private and for-profit events, as well as after-hours community usage (parking buses for community Wi-Fi).
- Content filtering and user network restrictions are required consistent with the school's Acceptable Use Policy for internet usage inside school buildings.
- There is no monthly minimum usage requirement as long as the equipment is installed, and the service is activated. **This includes the summer months when buses are not being used.**
- **When requesting on the Form 470, an RFP is no longer required.**

Filing the Form 470

- Although not a requirement, it's recommended that you issue a separate Form 470 for bus Wi-Fi service and include in the nickname: "School Bus Wi-Fi Service" or "School Bus Wi-Fi Service and Equipment".
 - Schools should include the number of buses being outfitted for Wi-Fi,
 - Whether you are seeking bids for services only or equipment and services,
 - The geographic location of the buses so providers can determine if they have service in that area.

RFP Template

Here is a sample RFP template.

To indicate the bus routes, you can state the number of buses that travel throughout “X” County or provide a map showing the routes.

For a copy of the template, go to <https://E-Ratepa.org/?p=35259>

Upload RFP

Changes to the FCC Form 470, including uploading a new RFP document, may require applicants to restart the 28-day waiting period before selecting a service provider, signing a contract, or submitting and certifying an FCC Form 471. Ministerial or clerical errors, such as updating contact information, do not require a reset of the 28-day waiting period. However, changes that materially affect the competitive bidding process, such as changing the services or equipment being requested, do require restarting the 28-day waiting period.

If you are requesting bids for additional equipment, services, or recipients of service not included on the original FCC Form 470, you may need to file a new FCC Form 470.

Please review the [USAC.org](https://www.usac.org) for additional guidance.

Does this new RFP constitute a substantial change to your FCC Form 470?*

- Yes
- No

If you select yes, the 28-day waiting period will reset, and the Allowable Contract Date on your FCC Form 470 will be updated accordingly. If the new Allowable Contract Date prevents you from certifying the FCC Form 471 before the application window closes, you must request a waiver from the Commission after certifying the FCC Form 471.

Uploading a new RFP document with substantial changes and not waiting the minimum 28 days may result in denial of funding.

- If adding an RFP document, you will be asked if a substantial change is being made, such as adding new service or quantities. If so, your 28-day waiting period will restart. Upload the file, and then select the service to associate the new RFP document with.

Evaluating Bids

- After the bid due date (which must be at least 29 days after 470 is posted), applicant must review all qualified bids received for all services or equipment
- Must create and retain bid evaluation matrix

Services: Price of eligible services/equipment MUST be the most heavily weighted factor during bid evaluation

– Brief list of evaluation criteria examples:

- Quality of proposed solution
- Cost of ineligible items
- References
- Experience with the vendor
- Ability to meet installation deadline

Equipment: In PA, public schools must select low-bid among all qualified proposals unless using PEPPM contract (then can include bid evaluation factors)

- Retain all winning and losing bids and all correspondence between applicant and all vendors (winning and losing)
- Helpful Guide: <https://E-Ratepa.org/?p=35287>

Disqualifying a Bid

- In order to DQ a bid, the bid disqualification reason must have been stated in the Form 470 or in the RFP
- **DQ reasons must be yes/no (either they complied, or they did not)**
- *Examples:*
 - Vendor must submit a proposal by the deadline stated in the 470/RFP
 - Vendor must bid on all services requested in the 470/RFP
 - Vendor must be authorized to do business in PA
 - Equipment must be compatible with school's existing XXX equipment
 - Be sure to then list the existing equipment in the school or library
 - Equipment cannot be refurbished or “gray market”
 - Vendor must be willing to provide discounted bills
 - Vendor must attend pre-bid walk-through
- When disqualifying a bid, make a note of the exact reason for DQ reason and show where it was stated in the 470 or RFP

Received No Bids?

- Document via an email or file memo that no bids were received
- Existing Services: can continue to receive services from existing service provider
- New Services/Procurement: Solicit bid from willing vendor **(who is not your brother-in-law or other family member)**
 - Make sure the price is cost-effective
 - Check marketplace options from other vendors in your area or nearby areas
 - Save research and information to justify buying service from this vendor

Bid Evaluation Matrix Example

Factor	Points Available	Vendor A	Vendor B	Vendor C
Proposal Cost		\$750	\$800	\$1000
-- Weighted Points (% to lowest bid)		100%	80%	75%
Price of Eligible Services/Equipment (weighted)	60	60	48	45
Ability to Meet Installation Timeline	20	10	10	20
Quality of Proposed Solution	10	10	10	10
References	10	8	8	5
TOTAL POINTS		88	76	80

QUESTIONS

The word "QUESTIONS" is written in a large, bold, white sans-serif font with a subtle drop shadow. It is centered horizontally and surrounded by a vibrant, chaotic arrangement of colorful question marks and geometric shapes. The shapes include circles, squares, and triangles in various colors such as red, orange, yellow, green, blue, purple, and pink. The question marks are also in various colors and sizes, some appearing to be layered behind or in front of the other shapes, creating a sense of depth and complexity.
