

Contract Records Guide for PEPPM - FY 2026

Presented by Lorrie Germann
PA E-Rate Coordinator
for the Pennsylvania Department of Education
January 2026

You are **here** in the E-Rate process:

PEPPM-Based Contracts

- The biggest differences between a 470-based Contract Record and a PEPPM-based Contract Record are:
 - Use all information from the LOCAL contract signed with the vendor, resulting from your PEPPM mini-bid, EXCEPT use the PEPPM 470 # - **260000400**
 - Use # of bids from your PEPPM Mini-Bid
 - Use signing date of PEPPM mini-bid-based contract
 - Answer a few questions differently
 - State Master Contract, Multi-Award Contract, & Piggyback questions
- In general, a new CR will be created for every new PEPPM-based contract signed with a vendor
- Upload a copy of the District's contract with the vendor
- Look for this symbol on the following pages to identify where PEPPM-related information must be listed

~ PEPPM ~

Purpose of Contract Records

- During the creation of a Form 471, each FRN requires you to indicate how you will be purchasing the requested services – either via a contract, tariff or Month-to-Month (MTM):

FRN Contract

How are the services for this FRN being purchased?

Contract information is stored in your Profile; you can add a new Contract at any time. Details about your Tariff and Month-to-Month services will be entered in your FRN.

- Instead of entering the bidding/contract information as part of the Form 471 application, this information is entered in EPC as a Contract Record (CR)
 - A single Contract Record is created each time a **new** contract is signed
 - That Contract Record is then referenced to the applicable FRN
- Create Contract Records in the Contracts Module before starting the Form 471
- No information should be entered in the Contracts Module for MTM FRNs

When to/Not to Create a New Contract Record

When TO Create a New Contract Record

- Newly signed contracts
 - Create a new Contract Record each time you sign a new contract
 - Do not create a CR for each year of the contract
- Errors on previously-submitted Contract Records
 - If you notice that any data in your Contract Record from last year is inaccurate (such as the 470 #, SPIN #, voluntary extensions, etc.), create a new CR and reference the accurate Contract Record on your FRN (ignoring the old one)
 - There is no way to edit an existing Contract Record after it's been submitted
 - Likewise, there's no way to delete a submitted CR (it will just die on the vine)

When NOT to Create a New Contract Record

- If you created a Contract Record in a previous year for a multi-year contract, do not create a new one. Just reference the original Contract Record when creating your 471
- If your previous Contract Record contained voluntary extensions, and you wish to exercise one of those extensions for FY 2026, do not create a new CR
 - Simply change the Contract Expiration Date in the FRN when you create your Form 471

Contract Records – Additional Details

- Uploading Actual Contracts in CR
 - Although the system asks if you want to upload a copy of your signed contract into EPC, you aren't required to do so
 - However, I highly recommend that you upload copies of all signed contracts, including C2 contracts, because PIA will likely ask you for them if they're not in your Contract Record
- Contract Expiration Dates
 - The Contract Module doesn't ask for the Contract Expiration Date (CED) -- this data element must be entered in each funding request within the Form 471 itself
 - Why? Because due to voluntary extensions in some contracts, it's possible that the CED can change from year to year
- PEPPM Mini-Bid-Based Contracts
 - If you conducted a PEPPM Mini-Bid (in lieu of a Form 470), refer to this Guide for the data that should be entered in the Contract Module for those contracts
 - Except for the PEPPM Form 470 # (**260000400**), you will rely entirely on the contract information that your district signed with the vendor.
- Be Prepared
 - It's a good idea to have the information in-hand. Use the CR Data spreadsheet to compile the required data prior to starting the Contract Record
